 San Francisco, is our authorized agent.
 This paper is kept on file in his office.

THE OREGON REVOLUTION.

The political revolution in Oregon is the subject of general comment throughout the United States. That revolution in the First Congressional District changed a Republican plurality of 9,644 in 1894 to a Populist plurality for Vandenberg in 1896. In the Second district, which gave Ellis, the Republican nominee for Congress, a plurality of 8,125 in 1894, Quinn, Populist, has been elected in 1896. In the city of Portland, which gave Lord, Republican, a plurality of 8,923 in 1894, Penneyer, Populist, and Democrat, has been elected Mayor by a plurality of several thousand in 1896.

It is seldom in the history of the country that there has been such a political upheaval. It has created consternation in the camp of the goldbugs as they see in it a premonition of the storm which will sweep the country in November. The silver men at the National Capital look upon it as a complete renunciation of the single gold standard.

General Weaver, who canvassed nearly every county in Oregon and spoke for free silver in all the principal towns, says he found the people about four to one in favor of free coinage. Unfortunately the silver men are divided, as the Democrats as well as the Populists declared for free silver, and Ellis, the Republican candidate in the Second district, claims to be a silver man. Judge Northrup, the straight-out gold Republican candidate, was literally snowed under.

General Weaver, who is yet in Oregon, says "a union will be perfected at St. Louis, July 22d, of all the silver elements, and they will rally under one banner and in support of one ticket. It will not be necessary, so far as Oregon is concerned, to make a further serious canvass of the State. With Populists and silver Democrats and silver Republicans fighting together for silver the gold candidate, whoever he may be, will not get over one-fourth of the votes of the people in November."

Nothing that the gold men can do can resist the force of the silver men if they unite on one candidate for President. They will carry every State west of the Alleghenies and South of Delaware. The general business depression and depreciation in the value of property are severe but thorough educators. Everyone who is capable of reasoning knows that the adoption of the single standard and the consequent appreciation of gold is the cause of the hard times, and all who are not profiting by the increased purchasing power of gold except the few who expect federal offices, have resolved to place prosperity above party and support a free coinage man for President. They know that with a free silver Congress and a free silver President this country would be the most prosperous on the earth. The population of Nevada would double in six months and the State would be among the most prosperous in the Union.

It is an old saying that revolutions never go backward. Oregon has blazed the way to good times and the people should see that place hunters do not obliterate the marks or lead them into by-paths with party guide-posts.

SENATORS' VIEWS ON SILVER.

The Examiner publishes dispatches from several Senators giving their views on what the Republican platform should be. Senator Elkins of West Virginia says "he would meet the financial issue squarely between the gold and silver standards and leave no room for doubt, so that the question may be put at rest in this country after the election." Senator Perkins of California thinks "something like" the Ohio plank in the National platform would help the Republicans out. "There should be neither straddles, doubles nor hesitations, but a plank such as the Massachusetts and New York conventions adopted." Senator Stewart of Nevada "doesn't believe the Republican convention will have the manhood to define its principles. Any man nominated by that body will only have for his object the deception of the people and securing their votes."

As two of the three Republican Senators who have expressed their opinions are disposed to straddle the silver question, while one is in favor of declaring unequivocally for the single standard. Senator Stewart is probably correct in his surmise that the Republican National Convention will not have the manhood to define its principles and that a deceptive plank will be framed for the purpose of securing votes.

The bogus silver papers, which profess to be for free coinage while doing everything in their power to aid a party that is opposed to it, are at their wits' end to find a plausible excuse for the Oregon political cyclone. If they are what they pretend to be, in favor of free silver, why not rejoice over the election of Congressmen who will vote for free coinage.

The great daily newspapers of San Francisco are owned by millionaires, who, unfortunately, are opposed to free silver, though occasionally, for deceptive purposes only, they profess to favor it. Not one of them commend the people of Oregon for their independence.

TELEGRAPHIC NOTES.

The St. Louis detectives claim to have located Rev. Francis Hermans who is wanted in Salt Lake City for a double murder.

The body of Jacob Baer, a pioneer of Los Angeles, was found floating in West Lake yesterday. He had been missing since Monday.

Dunham, the murderer, has evaded his pursuers and has not yet been captured. The women of San Jose propose to increase the reward for his capture.

The Oregon Republican State Central Committee claims that an error of 146 votes in Linn county defeats Vandenberg, Populist, in the First Congressional District.

Philip Oppenheimer, who is wanted at Sacramento for defalcation, registered in Toronto, Canada, giving Chicago as his home. He did not attempt to conceal his identity.

Congressman Grosvenor and other close friends of McKinley have intimated since the Oregon election that the St. Louis platform will be a compromise on the money question.

The jury in the case of James Ferri, who shot and killed G. W. Hickman in Stanislaus county, California, last April, disagreed. They stood ten for acquittal and two for conviction.

Joseph Windrath was hanged yesterday in Chicago. He feigned insanity, and though manacled, struggled with his guards. He cried "hang up the man now" until the rope stifled his cries.

A terrific wind and hail storm visited the farming section near Pender, Nebraska. Fences were leveled and the residences of Wm. Lyden and James Kinsel and a number of barns were scattered over several sections of land.

Jacob Rich as an individual, and the First Street Railroad of San Jose as a corporation have filed a petition of insolvency. The liabilities are placed at over \$600,000 and the assets consist of electric and horse lines in San Jose, and real estate owned by Rich, the value of which he estimates at \$700,000.

A vote was taken on the contested election case of Martin vs. Lockhart in the Seventh North Carolina District.

During the progress of the vote the Democrats, with the exception of Bailey, left the hall, and Bailey made the point of no quorum, but the motion was overruled and Martin was seated by a vote of 113 to 5. Downing, Democrat, of Illinois was also unseated and Reneker, Republican, given the seat.

Witnesses of the fatal crash near Moscow, which resulted in the death of 3,500 persons, blame the Prefect of Police for the disaster. He refused offers of troops to control the crowd, declaring that he knew his business. The feeling against him is intense and only a strong military force saved him from being lynched. A number of peasants plunged into vats of beer provided for the feast and were drowned.

In the Senate yesterday Morgan asked for action on his resolution requesting the President for information regarding the capture of the Competitor by a Spanish warship and condemnation to death of American citizens. During the debate which followed Sherman stated that the proceedings were of such a character as to come within the rules requiring secrecy. The galleries were accordingly cleared and the doors closed.

Austia Corbin, the New York multimillionaire, was fatally injured near Newport, New Hampshire, by being thrown from his carriage in a run away. The horses dashed across the street and the carriage collided with a stone wall and careened sufficiently to throw out the occupants, Mr. Corbin and his nephew, Edgell Corbin, and the driver, John Stokes. Young Corbin had one leg broken and the elder Corbin and driver died from their injuries.

ESMERALDA COAL MINES.

The Iowa Experts Well Pleased With the Prospect.

The JOURNAL mentioned the fact that Henry Phillips and W. W. Hensley, the owners of coal mines at Ottumwa, Iowa, had arrived here on their way to Esmeralda to examine coal mines. The Hawthorne Bulletin says "they visited the coal mines near Candelaria in company with W. A. Ingalls. They made a complete examination of the mines and adjoining territory. They took samples of the coal and will make a favorable report. Mr. Phillips says if the railroad company will grant certain concessions his people will go ahead and develop the property. As the company has always shown a disposition to make concessions for local industries, no hitch is anticipated on that score." A lump of the coal can be seen at the JOURNAL office, and experts say it is equal to Rocky Mountain coal.

VIATI.

Viati is more of a food than a medicine. I should be glad to have those who do not understand its use, call and get a Health Book free and read the home testimonials. Viati sales in 1895 exceeded those in 1894 by half a million dollars. Mrs. B. E. HUNTER, Fourth Street.

A. Nelson.

Jobber in cigars and tobacco, also carries a full line of gent's furnishing goods, which he offers for sale at cost price, as he wants to make room for a new stock. Free employment rooms connected with his store.

GPOWTH.

And so it goes. The tree grows and the sun shines. The birds sing and the flowers bloom. The world is full of life and joy. And so it goes.

Peace through a sunny span may keep the garden in some quiet glen. The flowers grow for him and he. And the birds sing on the air and the flowers of peace are death and sleep. The strife of living makes us men.

Ab, joy it is to win the goal. To take a walk and dandle with. Yet may the heart be glad and whole. For the heart is glad and whole and ill. Our heart is glad and whole and ill. And the heart is glad and whole and ill. And the heart is glad and whole and ill.

TACKS.

Made in Great Variety and For Many Different Uses.

The best tacks are made of imported Swedish iron, the next grade of American soft steel and the cheapest of common American iron. Tacks are also made of copper. Some tacks are tinned, and for ship use tacks are galvanized. Tacks are made of sizes ranging from a half ounce to 24 ounces. The tack commonly used as a carpet tack is an eight ounce tack. A 24 ounce tack is about 1 1/2 inch in length.

There are many kinds of tacks, made for a great variety of uses, and they are put up in many different forms. There are grip tacks, looking glass tacks, upholsterer's tacks, trunk tacks, lace tacks, basket tacks, brush tacks, coffin tacks, chank tacks, lusting tacks, miner's tacks, cheesebox tacks and tacks for many other uses. Within the past dozen years the sale of double pointed tacks has increased tenfold with the greatly increased use of electrical wires. Double pointed tacks are also used for tacking down straw matting and for other purposes.

Tacks that are sold in papers are put up in full weights, half weights, and quarter weights, the weight indicating the size of the package. Almost all kinds of tacks are also sold in bulk in 25 pound and 50 pound boxes and in 100 pound kegs.

A one ounce tack machine will make in a day about 100,000 tacks altogether. The iron is fed into the machine in a plate which is of a width a little greater than the length of the finished tack, so as to allow of material to be upset for the head. An eight ounce machine will make about 200 pounds of tacks a day—1,250 to the pound, about 250,000 tacks. Tacks that are put up in papers are weighed out and the papers filled by hand. Comparatively few tacks are put up nowadays in tied up papers. They are put up mostly in little pasteboard boxes. These boxes are packed in larger boxes and in turn in cases for shipment. A common tack package is a case weighing about 100 pounds.

The annual tack product of the country is estimated at about 80,000 tons. If these tacks were all put up in papers of the usual assortments of sizes and weights, the papers would number about 800,000,000, or something more than four papers per capita of the population. —New York Sun.

Judge Catlin of the Superior Court of Sacramento fined O. K. McClatchy of the Bre \$500 for contempt of Court.

BORN.

COURT—In Orson City, Nev., June 4, 1896, to the wife of James Court, a daughter.

DIED.

SHAW—In Reno, June 5, 1896, J. R. Shaw, a native of Illinois, aged about 58 years.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be recommended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

NOTICE!

THE STATE CENTRAL COMMITTEE OF THE Silver Party of Nevada will hold a meeting in RENO, Nevada, on

Saturday, June 20, 1896, at 11 o'clock A. M.,

To arrange for the selection of 15 Delegates to represent the Silver Party of Nevada at the National Silver Convention to be held at

St. Louis on July 22d, 1896,

And for the transaction of such other business as may come before the Committee.

JAS. H. KINKADE, Chairman.
 H. F. FLANNERY, Secretary

BREVITIES.

Trib.
Genesey & Savage, plumbers and tinners.
Have you catarrh. Use liquid Viava.
Paints and oils at Lange & Schmitt's.
Dave Dysart of Floriston was in town yesterday.
Evans Williams was a west bound passenger last night.
Garden tools, water pipe, plumbing and tinning at Lange & Schmitt's.
W. C. Watson of the Keeley Institute at Carson spent yesterday in Reno.
State Superintendent Catling was in town yesterday on official business.
Hon. W. E. F. Deal was an arrival from California yesterday morning.
Governor Sadler came in on the local yesterday and visited the University.
For a large and sweet loaf of bread go to the New Palace Bakery. m21tf.
Miss Bell McOlane of Mohawk was an arrival from the north last evening.
Uncle Jake McKissick arrived on the N-C-O. last evening and remained over.

Trib.
Dr. Bishop was called to the east end of the valley last night on a professional call.

Jas. T. Davis of the Mound House was a passenger for California last evening.

Mrs. G. W. Mapes and daughter, Echo, were passengers for California last night.

J. O. Calver, a United States mail inspector, was a northbound passenger yesterday.

Leo Hickman's benefit will occur on Monday, the 8th inst., instead of the 7th as announced.

T. V. Julien returned from a professional visit to the northern country yesterday evening.

Machine extras for old and new moving machines and rakes cheap at Lange & Schmitt's.

N. A. Hammel, Grand Chancellor of the Knights of Pythias, returned from the south yesterday.

Have you piles? Use Sano, prepared by the Viavi Company. It reaches the worst cases. Try it.

E. C. Harris sold three Rambler wheels yesterday. Mr. O. T. Bender purchased one of them.

R. J. Laws, Superintendent of the Carson & Colorado, changed cars for California last evening.

Trib.
L. N. Avery, for some time a clerk at Earle's, took the train last evening for St. Helena, where he goes to take a fine position.

Over three-fourths of the Democrats of Oregon and more than a third of the Republicans have gone into the Populist ranks.

At the Hotel Reno: S. W. Kyle, Virginia; L. E. Smith, Wadsword; Samuel Ranger, Wellington; G. D. Beymer, Chicago; J. L. Smith, St. Paul, Minn.

Mr. E. A. Holman of the New Palace Bakery has employed an expert and artistic baker from San Francisco. Patrons may be assured of the finest of bread, pies, cakes and baker's novelties from now on.

One of our goldbug neighbors is very angry because the change of administration in Nevada does not give the Republicans a chance to continue the business of transferring the gold in the State Treasury into dollars of 1893.

Trib.
T. Tomamichel of the William Tell House has just received a lot of imported wines, consisting of sweet Muscatel, Burgundy, Zinfandel, Riesling, Port Sherry and Claret. He sells by the gallon or bottle at prices that defy competition. Jeitf

It is settled that Missouri should be pronounced Mizsoura as the natives call it, not Missourree, as outside barbarians pronounce it. The Legislature of Arkansas by special enactment fixed the pronunciation Arkansas, and the Legislature of Missouri may be called to fix the pronunciation Mizsoura.

Our esteemed contemporary, the Gazette, says the silver men of Nevada have been voting for free coinage men for four years and silver is now lower than it was four years ago. That is true, but this year the Nevada idea will prevail in enough States to elect a President and silver will be worth its coinage value.

Governor Sadler has appointed Dr. R. P. Chandler a member of the Board of Examiners of the Nevada State Dental Society to fill the vacancy caused by the death of Dr. Thomas of Virginia City. The selection is a good one, and Dr. Chandler is well and favorably known in Reno and stands high in his profession.

Joe Knowles, the brakeman who was shot in the leg by a tramp a few days ago at Golconda, and sent to the railroad hospital for treatment, is reported as doing well, although the bullet has not been removed. The Silver State says the statement made by Dr. Hanson to the effect that the bullet was too near the veins and dangerous of removal, having been verified by the Sacramento railroad physicians.

DIED SUDDENLY.

J. R. SHAW, AN OLD RESIDENT OF NEVADA, DROPS DEAD.

A Past Grand Master Of the Order Of Odd Fellows.

At a little after 7 o'clock last evening J. R. Shaw, well known in Nevada, and for many years a resident of Dayton, died suddenly at the store of C. J. Brookins. Mr. Shaw was walking the street and was apparently in his usual health. He had just spoken to two or three friends and seemed cheerful and made no complaint of feeling unwell. As he was passing Brookins' store he staggered and seemed to make an effort to keep from falling, but his limbs refused to support him. Two or three gentlemen near at hand at once noticed that something unusual was the matter with him and hurried to his assistance. They just reached him in time to save him from falling and with the assistance of Mr. Brookins he was carried into the store and laid on the floor. Such remedies as were suggested and could be obtained hurriedly were tried, but to no effect. A tremor or two of his frame and a deep sigh was the end. He never spoke a word and showed no signs of suffering. Friends sent for medical aid, but he was past all earthly help when the physicians arrived.

Coroner Peers was summoned and the remains were removed to the undertaking parlors of W. Sanders.

It is probable that death resulted from apoplexy, as Mr. Shaw had not complained of any illness.

It has been noticed, however, by his friends that he had failed greatly in the last month or two.

He was a native of Illinois and about 63 years of age.

Mr. Shaw was an old resident of Nevada and well known in the western part of the State, having resided at Dayton over 30 years and for 15 years was a County Commissioner of Lyon county. He also held other public positions in his former town and county.

Less than a year ago he came to Reno and opened the Arcade Restaurant, but the business not proving profitable he gave it up.

Mr. Shaw was a Past Grand Master of the I. O. O. F., and a member of the Dayton Lodge, also a member of the A. O. U. W.

He was a whole-souled pleasant gentleman and was formerly a man of considerable means and a leader in politics. Of late years he has had business reverses and has worried greatly over his hard luck. He has many friends who will be shocked to hear of his sudden death. He leaves a wife and son to mourn his death.

Arrangements for the funeral were not completed last evening as it was desired to consult the lodges to which he belonged, but it was thought that his remains would probably be taken to Dayton, where the services and burial would take place.

At the Opera House

A large and appreciative audience greeted the Reno Dramatic Club at the Opera House last night. The "Midnight Charge," a military drama, was well played and duly enjoyed by all. Mrs. B. C. Shearer as Sister Alice gave a splendid portrayal of the part, the little lady showing a wonderful knowledge of stage business, also the careful study she had given the character. Miss Lillian Manns as Grace Wood was excellent, and she deserves especial mention from the fact that she was suffering from a severe cold, making her work doubly hard. Miss Maude Bruneau as Mrs. Wood did the little she had to do well. The gentlemen sustained their various characters in splendid form, and the singing of the "Punkin Blossom Club" under the leadership of Prof. Wilson as Jumbo, was a feature. The horse-shoeing act by C. P. Forrel was great, as was evidenced by the applause he received. The scenery in the play, painted by J. M. Pugh, received many favorable comments.

Justice Court.

Wm. Nealey and R. Coats appeared before Judge Linn yesterday to listen to his Honor's opinion as to the cost of the luxury of pulling a gun and shooting it promiscuously within the city limits. The Judge concluded that a fine of \$100 or fifty days in jail for each individual would be about the proper caper and it was so ordered. The defendants, with a kind of far away expression on their faces as if they didn't exactly agree with the Judge, quietly accompanied the officer over the river, where they will do time and meditate on the peculiarities of the law.

Wm. Reich and John McDuff, the men arrested in Sunderland's tailor shop the other night and charged with burglary, were discharged, the Judge believing that the jag the men were carrying had steered them into the wrong place and that no wrong was intended. He impressed upon them the necessity of leading sober and industrious lives as, "thurrabs" frequently ended disastrously.

Coronado Coronado!

Natural mineral water bottled at the springs, near the Hotel Del Coronado, California. H. J. Thyes, State Agent, has received a carload and is now prepared to supply the trade and families cheaper than any mineral water ever placed on this market. All orders promptly attended to. Apr21

WEATHER BULLETIN.

Storm Waves—Magnetism and Meteorology.
[Copyrighted by Prof. W. T. Foster.]

St. JOSEPH, Mo., June 5.—My last bulletin gave forecasts of the storm waves to cross the continent from the 8th to the 12th, and the next will reach the Pacific coast about the 18th, cross the west of the Rockies country by the close of the 17th, Great Central valleys 20th to 22d, and the Eastern States 23d.

A warm wave will cross the west of Rockies country about June 18th, Great Central valleys the 20th, and the Eastern States the 21st. A cool wave will cross the west of Rockies country about the 21st, Great Central valleys the 23d, and the Eastern States the 25th.

The following forecasts for May, published in April, is not without interest: "Rainfall will be deficient in the northern portions of the Great Central valleys, about the Great Lakes and in the North Atlantic States. From Fort Scott, Memphis and Nashville north the rainfall will be below the normal. The Upper Missouri and Red River of the North valleys will have fair rains."

"Considering that May is usually a quiet weather month, this disturbance of the 27th to 31st, will bring unusually severe weather."

MAGNETISM AND METEOROLOGY.
The horizontal force originating from the sun, pushes the earth onward in its orbit and as that force acts only on the dark side of the earth it is the original and only cause of the earth's rotation on its axis, thus bringing day and night.

That which is the cause of gravity is the cause of all motion, is the moving force that results in these magnetic forces. This theory, which underlies planetary magnetism and meteorology, regards gravity as being a result of the ether, which moves from all points of space toward the center of the earth.

The ether is matter in its finest or most attenuated form, yet it carries gross matter, which is deposited in the atmosphere, vegetation and the earth. After this gross matter is disposed of there remains a germ called magnetism and this returns to space by way of the outgoing forces of the earth's equator, the forces working in the same manner in the stars, and planets.

This outpouring of the refined ether at the equator as it goes with lightning speed out into space, induces a downpour of kindred magnetic elements at the North and South magnetic poles.

Without planetary influences, according to my theory, sun influences according to Bigelow and others, these outpours at the equator and downpours at the poles would be constant and steady, no variations of the needle would be revealed and no sudden changes in the weather.

Bigelow claims that the vibration of the sun's magnetic forces come through the poles of the earth; I claim that they are from planetary influences and that they reach the earth by way of its equator, inducing a stress throughout the earth, strongest at the magnetic poles.

When the magnetic forces at the earth's equator are clogged or accelerated by the magnetic forces of the planets the change is instantly felt on all parts of the earth, but most forcibly at the earth's north magnetic pole in North America.

The movement of the forces, however, except the temporary fluctuations or variations, depend on the push of the ether, or the push of gravitation, and that push in turn depends wholly on the condensations of the ether as it forms into more solid matter in vegetable, animal and mineral substances.

The cause of gravity is at the surface of each growing sun or planet. The growing earth uses up the ether in and about it, out of which it forms more solid material than ether, and as all space is full of either its push toward points of condensation, presses all things toward the growing body that is using up the ether.

We attach an air pump to an air tight barrel and pump all the air out of it. The air surrounding the barrel begins to push toward the center of the barrel the moment the air pump is set to work and when all the air is out of the barrel the surrounding atmosphere is pushing toward its center with a force of about fourteen pounds to the square inch.

Will Open To-Day

O. Lemery as manager will open the restaurant department of the Arcade Hotel this morning. It has been renovated, remodeled and refitted and is one of the cosiest and neatest dining rooms in town. Mr. Lemery as a caterer does not need any introduction to the Reno public. For years he conducted the Palace and Arcade restaurants and is thoroughly posted in the business. He proposes to make the Arcade a popular place as well as homelike, and his service will be first class. His specialty will be fresh oysters served in every style and at all hours. He will give a special dinner every day from 11 till 2 o'clock for 25 cents, and an extra dinner each day from 4 to 5 p. m. for 50 cents.

All of the latest fads in lunches, party suppers, lunches for travelers, etc., will be prepared on the shortest notice.

More King Methods.

EDITOR JOURNAL.—My attention is attracted to the "opinion" of A. Okey Hall, the versatile and accommodating District Attorney of the Boodle Ring now running Washoe county. A stranger visiting our fair town knows little of the contemptible methods controlling its destiny and welfare. But to business. I find in the opinion of our District Attorney in answer to the request of the County Auditor asking for a legal opinion as to whether the law was complied with in the purchase of a lot of steel (should be spelled steal) boxes for the County Clerk's office by the County Commissioners from the Office Specialty Company. The District Attorney makes an effort to state the contract entered into by the County Commissioners, and after practically admitting that the law was ignored and cast into the Commissioner's slop bucket in the letting of the contract by the Board, he seems to be very positive that Washoe county is bound to pay for not only the steel (steal) boxes, bundle of five hundred dollars and all—and the District Attorney has the extreme effrontery to suggest that he comes to this conclusion from reading the Supreme Court decision in the case of Watts vs. Ormsby county, 1 Nevada, page 377, and a San Francisco case—I have no opportunity to examine the California case, but will submit that the Ormsby county case comes no nearer covering this question before our Boodle Board than old Jim Sellers when he tried to justify himself for stealing Jim Sturtevant's chickens because they tried to bite him. And so it goes—oodle rampant and the ring holds four aces and the joker up their sleeves. But I have not the time to particularize and not wishing to forestall public opinion by asserting my own I suggest that every taxpayer in our county get the opinion referred to and read it. This matter, however, is only in line with a dozen others of like character and like shamelessness, including the \$75 embezzled by the boss, the Anderson sheep case, where, eminent extra legal counselors, two or three or more, were engaged to defend a private law suit under the pretense of having Washoe county \$33, for which the assinine rug paid \$170, together with scores of other transactions that would disgrace a wooden Indian. Yea, verily.

H. H. B.

June 5, 1896.

Hal Hal Hal! Zip! Zet! Zuh! '96, '96, Rah! Rah! Rah!

People were startled at an early hour last evening by the sound of tin horns and the appearance of a fantastic procession, many of the participants wearing robes and carrying emblems of mourning. It was the Freshman class of the University, girls and all, preparing to cremate an obituary representing Genuing's Rhetoric and Brooks' Literature. They paraded about town finally winding up on the campus where the exercises were to take place. The Freshmen had prepared themselves with handbells, ropes, etc., in anticipation of a rush from the Sophomore class, in an attempt to rescue the books, but the latter remained at a respectful distance during the ceremonies. Miss Louisa Linscott gave an oration in German, Fred Nichol in French, T. P. Brown in Latin and the President of the class, W. C. Lamb, in English. During the orations a small coffin was produced and the books placed in it. They were liberally saturated with coal oil and gasoline and a quantity of powder added and the torch applied. This was the moment the Freshmen expected an attack from the Sophs, but they did not try it.

The Freshmen are desirous of sincerely, and with profound regard for their timidity, thanking the Sophomores for their excellent display of judgment in not disturbing them during the ceremonies.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diamondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succceding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts. and \$1.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness, yield to Electric Bitters. Fifty cents and \$1 per bottle at S. J. Hodgkinson's drug store.

CLOSING EXERCISES.

A Regular "Bird Day" With the Little Folks.

The little ones in Miss Snow's and Miss Henry's rooms had a gala day yesterday. The occasion was the closing exercises for the term. The rooms were prettily decorated with evergreens and flowers and a number of birds' nests were conspicuous in the decorations. The exercises were made up of recitations and songs about birds and their habits and were very interesting to all present.

A large number of the parents of the little ones and friends of the school were present and both Miss Snow and Miss Henry were complimented on the progress of the little pupils and the excellent entertainment presented.

The school duties in these rooms will continue for two weeks yet, but the closing exercises were held yesterday in order to give way for the other rooms.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It disturbs at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, soothes the gums, reduces inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle, sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

4-1y

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25cts per box. For sale by S. J. Hodgkinson.

When using you should not eat or drink. When used as a Child, send for Castoria. When the became Sick, send for Castoria. When she had Children, she gave them Castoria.

THE MODERN BEAUTY

Thrives on good food and sunshine, with plenty of exercises in the open air. Her form glows with health and her face blooms with its beauty. If her system needs the cleansing action of a laxative remedy, she uses the gentle and pleasant Syrup of Figs. Made by the California Fig Syrup Company.

Imitation hurts the original—at first—but after that—it's all right. The survival of the fittest decides the question. Hires Rootbeer stands in the face of all imitations way beyond all of its competitors.

Made only by The Charles F. Hires Co., Philadelphia. A 25c package makes 5 gallons. Sold everywhere.

District Court.

The District Court was occupied yesterday in the trial of Eugene Hayden vs. Gus Koppe, the former claiming that the latter had broken faith in the agreement when Hayden had bought Koppe's express business by starting an opposition. The suit was brought for \$300 and was tried before a jury of eight. Judgment was rendered in favor of defendant.

EXERCISES FOR THE THROAT.

A Branch of Physical Culture Not Often
Touched On.

The chronic sore throat is not in-
frequently produced by the misuse of the
vocal organs. Very often that unruly
little member, the tongue, is account-
able for the difficulty, as it is for a great
many other troubles in this transitory
life. Many people have a habit when
talking of pushing the tongue so far
back against the delicate membranes
that line the throat that irritation more
or less painful is caused, and if it con-
tinues any length of time ulcers will
form, and so will a doctor's bill.

Control of the tongue is excellent in
all senses of the word. Physically this
organ may be managed by depressing it
into a hollow at a point three-quarters
of an inch back of where the tip of it
comes when in a natural position in the
mouth and at the same time singing
very light head tones. This exercise
requires some patience at first, but the
habit of keeping the tongue down is
soon acquired. In speaking or singing
it should not be allowed to hoop up and
fill the mouth, thus interfering with
the free passage of the tones of the voice
from the throat to the front of the
mouth, where they should strike and
then escape clear as a bell. This hoop-
ing up of the tongue in the mouth is the
cause of much of the indistinct and
slovenly utterances to which we are too
often obliged to listen.

In many people we notice the line
from the point of the chin to the neck
is in the form of a right angle. In a
shapely throat this line forms a curve
just as a canary's does when the small
yellow artist is warbling his carols.
To develop the throat and make this
angle a curve, stand before a mirror so
that you may watch the throat swell
out. Now thrust your tongue out as far
as it will go, then draw it back quickly
and forcibly, at the same time bringing
it downward in the mouth as far as you
can. Place your thumb and forefinger
against the larynx (commonly called the
Adam's apple), and if you are mak-
ing the right movement you will feel
the larynx pass downward. For a week
or two make the movements lightly.
After that time put as much force into it
as you can. The exercise should be
practiced for a few minutes several
times a day to insure rapid and good
results.

To fill up the hollows of the neck,
stand correctly, and then slowly lift the
lungs with air without elevating your
shoulders. As the air is forced upward
into the throat hold it there a few sec-
onds and then expel slowly. This exer-
cise is best performed soon after rising
in the morning and before retiring at
night.—New York Post.

SCIENCE TOO SLOW.

Discovery of Cat Language Not Likely to
Be of Much Use.

"We live and learn," said the ordin-
ary man. "I always thought that a cat
could either meow or purr or spit or
leave it alone. It now seems that I've
done an injustice to the beast's vocabu-
lary. Dr. Professor Clark, I'm told,
has been studying the language of cats,
and has discovered 600 'primitive
words.'"
"Of which," the man boy said, "500
are either hisses or purrs or imprecations."
"The professor doesn't say so, and I
don't see how you found it out."
"I see this paper," says that cat lan-
guage expert, "and it says that cat lan-
guage has a resemblance to Chinese.
It's rather like to me, a fallen and
fallen man, to think of a cat's language
as being so much like that of the
Chinese." "Well, if there's anything in it,"
the ordinary man remarked, "it would ac-
count for the Chino-Japanese war in a
novel and perfectly satisfactory way.
But really, when one comes to think of
it, it is much easier to believe that cats
and owls both make sounds exactly like
the sound of a human voice. Given a
churchyard, a dark night and a white
cat, and you have all the materials of a
ghost story."

"It's a pity," the journalist said,
"that discoveries of this kind cannot be
turned to some practical use. Why
don't they discover the language of the
horse? It would make driving much
easier if you could tell the go exactly
what you wanted and explain to it ver-
bally the perfectly innocuous character
of any object at which it might be likely
to shy."

"Ah!" said the eminent person. "Be-
fore that discovery arrives we shall have
the automobiles and no horses at all!"

A NERVE FOOD FOUND

You Must Feed the Nerves, not Strain
Them; Build Them up, not Stimu-
late Them; Coax Them,
not Drive Them.

Ordinary Foods do not Supply Sufficient or Proper
Nourishment for Wasted Nerves—They Must
be Carefully Treated on Scientific
Principles.

THE CASE OF A PARALYTIC WHOSE NERVES WERE SO NOURISHED THAT
HE WAS CURED.

From the Courier-Herald, Saginaw, Mich.

Do you see those two men walking up the
street? One has a vigorous, firm, elastic step,
his head well up, his eyes bright—a picture
of a sound and perfect man. The other is
hunched, his knees weak and unsteady, a listless
air about his whole make-up. He has the
appearance of one who is broken in health and
who has to whip himself to every task. The
difference between these two men is a difference
of nerve power. With nerve power comes en-
ergy, enterprise, force, vigor—all things which
make existence enjoyable; without it the
muscles cannot act, the brain cannot think.
Bear in mind that life is nerve power, and if
you wish to keep it you must feed the nerves.
Do not simply stimulate them, but coax them
—feed them. Give them the food which will
renew their life and make them sound and
healthy, that they may ward off disease.

Probably paralysis is the nearest disease to
nerve-death that we know, and we therefore
take a case of it below, to show that a certain
famous nerve-building preparation can do to
feed and absolutely restore almost hopelessly
wasted nerves.

There are but few in the Saginaw Valley
but who have known personally or made the
acquaintance indirectly of Mr. W. H. Dawson, 618
Union Avenue, Saginaw, Mich., West Side.
It is here that the head of a family has fallen
heavily and caused a man to become mildly
known and extremely pitied.

It is the head of a family that often pines in
the bud that which nature has started with the
greatest promise for the future. Until
three years ago W. H. Dawson has known
but little of sickness and pain but the last
few years have brought with them untold suf-
fering from many chronic aches and pains
for something that might be better
remedies known to the scientific medicine
man were applied and without avail. The pa-
tient meanwhile faded and became worse but
still lingered to fulfill a wonderful mission
which will be the cause of less suffering among
his fellow creatures. It was that unseen hand
directing all things which permitted this one
man to live in misery so that the world might
become enlightened.

To hear the pitiful story of one who has
suffered who could not move a muscle for one
whole year and who is now convalescent
through the aid of a wonderful medicine might
lead one to believe that miracles are per-
formed in this day and age. They are, but
not as in times of old. This time it is through
the hand of man that life is restored.

"Until the fall of '92," said Mr. Dawson, to
a reporter, "I was as hearty and as full of life
and vigor as any young man could hope to be.
In fact sickness was then unknown to me.
About this time I was taken sick with in-
fluenza and after having two relapses my limbs
became affected. This trouble grew worse
rapidly and in March of '93 I was completely
paralyzed. Having taken every remedy known
everything my doctors could prescribe without
any effect, I decided to go to the Indiana
State Institute at Indianapolis hoping to re-
cover by taking some of their special treat-
ments. I was there for a period of two months
during which time I was taken sick with
gastric fever which left me in a worse con-
dition than ever before.

Dr. Williams' Pink Pills contain in a con-
densed form, all the elements necessary to give
new life and richness to the blood and restore
shrunken vitality. In many cases the reported
cure have been verified
by the leading newspapers and
in every possible manner and in no case has
the least semblance of fraud been discov-
ered. Their fame has spread to the far ends of
civilization and there is hardly a drug store
in this country or abroad where they cannot
be found.

Senator Shook Did Not Want His Whiskers
Pulled.

There was a time when Senator Bacon
of Georgia wore an ornate and lav-
ish hirsute adornment, and pictures
taken at the time he was president of
the Georgia senate so represent him.
Now he contents himself with a simple
moustache. How he happened to shear
his beard was told by the senator him-
self recently.

"It was," he began, "when the roller-
skating craze broke out and invaded
the best families in the south. It struck
Macon, and somehow it found a victim
in me. Everybody was going to the
skating rink, and consequently I went.
I soon acquired a remarkable degree of
grace in gliding daintily over the floor
to the pulsation of exhilarating waltz
strains, and my company was in great
demand by ladies who were still some-
what distrustful of their own skill. I
shall never forget. I was acting as the
guardian angel of one evening of a lady
whose main support I was in her feeble
efforts to prevent a collision with the
floor, and we were rather tremulously
gliding hither and thither among the
crowd when an invalid on skates ap-
proached us from the opposite direc-
tion. I saw at a glance that the man
had lost his compass and nothing but a
blind reliance in providence was defer-
ring his fall. That moment came when
he crashed against me. The collision
disturbed the center of gravity in my
fair companion, while at the same time
it hastened the downfall of the other.
Before I knew what was up the man,
in order to save himself, grasped hold
of one side of my whiskers, while the
lady fastened her grip in the other half,
and both held on for dear life while their
feet were describing geometrical
figures on the slippery floor. Considera-
tions of gallantry prevented me from
turning on the wretched being who was
clinging to my beard like the proverbial
straw on a cat's side, and there I was with
two struggling fellow creatures in the
arms of despair dangling on each side
of my whiskers. That experience deter-
mined me to sacrifice the whiskers and
to compromise my indulgence in that
habit. I shaved, my whiskers were cut off,
which at this no accident to a washed
skate.—Washington Post.

"I was in April of '94 that a friend told me
of the Dr. Williams' Pink Pills and asked me
to try them. I had no faith in anything, in
fact my life was now a burden and I had
lost all my life in a struggle to prolong
it. I was at length persuaded and the pills were
obtained. When I began taking them I was
pale, weak, listless and almost without life.
As before said, was completely paralyzed
from my waist down, my limbs were simply
bones and skin with no life or feeling in them
and I had been so for one year. Before the first
box was used I could move my toes a little and
could begin to feel new life all through me.
This was encouraging and I continued to use
these marvelous pills.

"In two months time I could move my
limbs about on the bed and by the time an-
other month had seen me swallow this medi-
cine, to which I owe my life, I was out of
bed alone. It has been just about one
year since I learned of Dr. Williams' Pink
Pills and during that time I have made such
marked improvement that I gladly predict
what they have done for me to all the world
and ask you fellow sufferers to try them and
receive new life. My life, my all, I owe to
Dr. Williams' Pink Pills.

I am now comparatively fleshy with good
color and high spirit, and every day brings
new strength and more happy life through
the continued use of Dr. Williams' Pink
Pills.

Subscribed and sworn to before me this 27th
day of May, 1896. J. J. EVANS,
Notary in and for Saginaw Co., Mich.

The foregoing is but one of many wonder-
ful cures that have been credited to Dr. Wil-
liams' Pink Pills for Pale People. Diseases
which heretofore have been supposed to be in-
curable, such as locomotor ataxia and paral-
ysis, succumb to this wonderful medicine as
readily as the most trifling ailments. In many
cases the reported cure have been verified
by the leading newspapers and
in every possible manner and in no case has
the least semblance of fraud been discov-
ered. Their fame has spread to the far ends of
civilization and there is hardly a drug store
in this country or abroad where they cannot
be found.

Dr. Williams' Pink Pills contain in a con-
densed form, all the elements necessary to give
new life and richness to the blood and restore
shrunken vitality. In many cases the reported
cure have been verified
by the leading newspapers and
in every possible manner and in no case has
the least semblance of fraud been discov-
ered. Their fame has spread to the far ends of
civilization and there is hardly a drug store

For your Protection.—Catarrh "Cures" or
Tonics for Catarrh in liquid form to be taken
internally, usually contain either Mercury or
Iodine or Potassa, or both, which are in-
jurious if too long taken. Catarrh is a local, not
a blood disease, caused by sudden change to
cold or damp weather. It starts in the nasal
passages, affecting eyes, ears and throat.
Cold in the head causes excessive flow of
mucus, and, if repeatedly neglected, the re-
sults of catarrh will follow: severe pain in
the head, a roaring sound in the ears, bad
breath, and oftentimes an offensive dis-
charge. There should be quick to allay
inflammation and heal the membrane. Ely's
Cream Balm is the acknowledged cure for
these troubles and contains no mercury
nor any injurious drug. Price, 50 cents.

Order To 8
To Deed Real Estate Should
Not Be Made.

IN THE DISTRICT COURT OF THE SEC-
ond Judicial District, in and for the
County of Washoe.
In the matter of the estate of M. D. Foley,
deceased.—Minnie D. Foley, Administratrix
of the estate of M. D. Foley, deceased, having
filed her petition praying for an order
to deed to Daniel Foley, her son, the fol-
lowing one-half interest of, in and to the E-
state of M. D. Foley, deceased, to wit: A
water (miner's measurement) flowing and to
flow in the Kelley & Sullivan ditch, being the
land and water conveyed to George Russell,
J. B. Bradley, M. D. Foley, Lewis Russell,
Morris Brown and their Heirs and assigns by
two deeds, one from William Webster and L. D.
King, dated May 10th, 1888, and recorded at
page 130 of Book 14, of Deeds, Records of
Washoe County, State of Nevada, and the
other from Mary Jane Powell, dated May 11th,
1888, and recorded at pages 142 and 143 of
Book 14 of Deeds, Records of Washoe
County, State of Nevada, and the same in-
stantly omitted from said deed and should have
been included therein.
It is therefore ordered by said Court that all
persons interested in the estate of said
deceased appear before the said Court on the
6th Day of June, 1896.

At 10 o'clock in the forenoon of said day, at
the Court-room in Reno, Washoe County,
Nevada, to show cause why said order should
not be granted as prayed for in said petition,
and that a copy of this order be published at
least four successive weeks in the Nevada
State Journal, a newspaper printed and
published at Reno, Nevada.

NOTICE FOR PUBLICATION.
UNITED STATES LAND OFFICE,
SUNSHINE, CAL., May 20, 1896.
NOTICE IS HEREBY GIVEN THAT IN
compliance with the provisions of the
act of Congress of June 22d, 1890, for the
sale of timber lands in the States of
California, Oregon, Nevada, and the Terri-
tory of Arizona, as extended to the public
Land States by act of August 4, 1892, Elie
LaChapelle, of Verdi, Nevada, County of
Washoe, State of Nevada, has this day filed in
his office his sworn statement No. 580, for the
purpose of securing a patent for 34.1 in
Township No. 21 North, Range No. 17 East, M.
D. M., and will offer proof to show that the
land claimed is not required for agricultural
or other than for agricultural purposes, and
to establish his claim to said land before the
Register and Receiver of this office at Sun-
shine, California, on

Thursday, the 30th day of July, 1896.
He names as witnesses: Anthony Gar-
della, Peter Tossant and John Tetrault of
Verdi, Nevada, and George Nelson of Reno,
Nevada.
Any and all persons claiming adversely the
above-described lands are requested to file
their claims in this office
